# Anthony Chidera Emmanuel

Data Analyst

Owerri, Imo State, Nigeria | +234 813 776 5197 | anthonyemma548@gmail.com | LinkedIn | Portfolio

## Professional Summary

Entry-level data analyst with a background in Animal Science, hands-on experience in lead generation and appointment setting, and a recently completed data analytics program at Datafrik (2026). Skilled in SQL, Python, Power BI, Tableau and Excel, with experience cleaning data, performing exploratory analysis, and building dashboards that turn raw data into clear, practical insights. Additional training in customer support, virtual assistance and telemarketing strengthens my communication and client-facing skills. Seeking a data analyst role in any industry where I can apply analytical skills and keep growing.

## Technical Skills

- **SQL:** Joins, subqueries, temporary tables, filtering and pattern matching
- **Python:** Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook
- **Power BI:** Power Query, data modelling, DAX, interactive dashboards
- **Excel:** Power Query, PivotTables, XLOOKUP, INDEX, SUMIFS, charts
- **Tableau:** Data visualization and dashboards
- **Core Analysis Skills:** Data cleaning, exploratory data analysis (EDA), data visualization, data storytelling
- **Professional Skills:** Lead generation, appointment setting, customer support, virtual assistance, telemarketing, communication

## Data Analytics Projects

**Sales Performance Analysis Dashboard (Power BI)**

- Built an interactive executive dashboard analyzing Superstore sales data from 2014 to 2017, covering $2.30M in total sales, $286K in profit, and 5K orders.
- Used Power Query, data modelling and DAX to prepare the data and create KPI measures, with Year, Region and Category filters for self-service exploration.
- Visualized sales by month, category and region, plus the top and bottom five products, and added an insights panel showing sales grew 242.69% between January and December 2014.

**Prosper Loan Data Exploration (Python)**

- Cleaned and explored a dataset of 113,937 loans and 81 columns using Pandas, NumPy, Matplotlib and Seaborn in Jupyter Notebook.
- Analyzed how loan amounts and borrower interest rates relate to income range, employment status and loan term, using histograms, count plots, box plots and scatter plots.
- Found that higher income ranges generally received larger loans, 60-month loans tended to be larger, and larger loans were generally associated with lower interest rates.

**SQL Murder Mystery (SQL)**

- Solved a data investigation by following evidence across multiple related tables, using joins, filtering, pattern matching (LIKE) and date-based conditions.
- Narrowed a large set of records down to two suspects, then identified the murderer from interview records.

**Sales Dashboard (Excel)**

- Built an interactive Excel sales dashboard analyzing 2021 sales across outlet types, product categories, sales channels and countries, with KPI cards for total sales ($384.73K) and average sales ($43.21).
- Cleaned and prepared the data with Power Query, then summarized it using PivotTables and formulas including XLOOKUP, INDEX and SUMIFS.
- Added timeline slicers (year, quarter, month, day) and filters for outlet type, category group, sales channel and country so users can explore the data themselves.
- Created charts on shipping status, least loyal customers, and sales by outlet type and order category, finding that convenience stores led with 39.27% of sales and Low End orders brought in $330.70K.

## Work Experience

**Lead Generator and Appointment Setter**, HG Media, New Zealand (Remote) | May 2024 – August 2024

- Sent 100 cold emails daily to prospective clients to generate leads and book appointments for the sales team.
- Researched and identified potential clients using Apollo and Google search to build and maintain organized lead lists.
- Kept organized lead records in Google Sheets so the team could follow up accurately.

## Education and Training

**Data Analytics Program**, Datafrik, 2026

- Completed hands-on training in SQL, Python, Power BI, Excel and data visualization.

**B.Agric. Tech., Animal Science and Technology**, Federal University of Technology Owerri (FUTO), Nigeria, 2023

## Additional Training

- Virtual assistance, telemarketing and customer support training, 2024
